

I have received notification of the possible loss of my favorite radio station, K-LOVE, which is broadcast via a FM translator.

K-LOVE serves me as a resident of the local community by providing music and commentary that is positive, uplifting and enjoyable to me. It is the only radio station I listen to.

If K-LOVE were to be displaced by this decision there are many parts of this local community that would receive no broadcasts via radio that are appropriate for young children.

I believe that K-LOVE provides a very important service to me and my local community by providing music and commentary that is a positive influence, void of inappropriates language and humor.

Please do not let this happen!
